## PROFILE

---

Junior full-stack developer transitioning from a biomedical science background with hands-on experience developing and deploying web applications using React, Next.js, Vite, Express.js, and Tailwind CSS. Skilled in frontend development, backend routing, API integration, and Vercel deployment. Seeking a junior full-stack developer role to contribute to real-world production web applications within a collaborative development environment.

## PROJECT EXPERIENCE

---

### Full-Stack Weather Tracker Website – Vite + React, Express.js

- Developed and deployed a full-stack weather application with React frontend and Express.js backend
- Implemented backend API routes to securely fetch third-party weather data
- Integrated external weather APIs and handled asynchronous data flow
- Developed responsive layout for mobile and desktop viewing
- Deployed production build on Vercel

### Developer Portfolio Website – Next.js + Tailwind CSS

- Designed and developed responsive portfolio website using Next.js and Tailwind CSS
- Built reusable UI components and structured routing
- Optimized layout for mobile and desktop viewing
- Deployed on Vercel

## EDUCATION

---

### Bachelor of Biomedical Science – La Trobe University, Singapore

September 2021 – April 2023

WAM: 78.75

### Diploma in Pharmaceutics Science – Republic Polytechnic, Singapore

April 2017 – May 2021

GPA: 3.31

## **SKILLS AND LANGUAGE**

---

### **Technical Skills**

- React, Vite, Next.js, JavaScript, HTML, Tailwind CSS, Node.js, Express.js
